

Name: **Oliver V. Ustinovich**

Date of Birth: 24.11.1989

Located: Amsterdam, NL, EMEA (CET)

Portfolio: [uxfella.com](https://uxfella.com)LinkedIn: [vitaly-oliver-ustinovich](https://www.linkedin.com/in/vitaly-oliver-ustinovich)

Experience: 15 years

Hello! 🙌 I'm Oliver, an experienced **product designer & manager**, design system and platform enthusiast. I have a strong passion for **creating inclusive and accessible user experience**, and my skills are adaptable to both startups and products in advanced stages. People describe me as approachable and collaborative, and I take pride in fostering a collaborative spirit, which I believe is essential for successful teamwork.

## Recent Journeys

### CrowdStrike (NL, US) - Leading Cybersecurity SaaS platform

👤 Architect, Product Design 📅 July 2024 - Present day

An architect spearheading the development of a new design system, making pivotal decisions on core components and design system architecture, in cooperation with a five-person team. Responsible for shaping the architectural vision and ensuring seamless implementation across projects.

### SentinelOne (CZ, IL, US) - Major Cybersecurity SaaS platform

[🔗 Case-study](#)

👤 Manager, Product Design 📅 Apr 2022 - March 2024

Established a product design team in the EU, which evolved into a central design hub. Overhauled the existing platform, and delivered a new accessible design system along with the necessary processes for it to function. Redesigned the MDR product. Delivered the proof of concept for the first AI product.

### Orchestr8 (UK, CZ, UAE) - Demand Driven Supply Chain SaaS

[🔗 Case-study](#)

👤 Product Design Architect 📅 May 2020 - Apr 2022

Designed a new cloud-based version of the supply chain SaaS platform. My responsibilities spanned the entire process, from conducting initial UCD workshops to creating high-fidelity prototypes. This involved establishing the information architecture and navigation systems, setting up design processes, validating prototypes, collaborating on specifications, creating user onboarding tools, and providing development support. The result is a fully functioning cloud platform.

## About Me

- Enjoy speaking at design meetups and writing articles on a variety of topics.
- In my free time, I write and record music (follow **The Avenues** on all platforms).
- I'm renovating a 200-year-old house in the heart of an ancient king's town, just 30 minutes from the center of Prague.
- I'm a **tennis enthusiast**. As a beginner, I'm excited about the journey that lies ahead.
- I enjoy **traveling and working remotely** with my wife whenever we get the opportunity.
